

I am truly honored and grateful for the support the Glory Stack Memorial Scholarship has provided me to pursue my dreams. It has greatly helped alleviate the financial burden of attending college at North Carolina State University, allowing me to focus more on my studies and college experience. Biomedical engineering and Christianity are important parts of my identity, and I am extremely touched and happy that they are being supported through this scholarship. This generous opportunity has inspired me to be determined, work hard, and follow Glory's kindness. Thank you so much again for your generosity. I will remember it as I continue pursuing my dreams.
