

I want to express my deep gratitude for this scholarship! The support of my Glory Stack Memorial Scholarship towards my education at Davidson College is tremendous. With this scholarship, I have less of a financial burden while attending college. I do not have to worry about leaving college with a large debt and student loans I must pay off. Additionally, I do not need to work long hours during the school year while attending my classes. This scholarship is allowing me to work towards dreams I have had for years. This scholarship allows me to save money that would have otherwise been put towards my current tuition. Instead, I am able to save this money to work towards medical school. I am working towards becoming a surgeon, so this scholarship helps me save the money I need in the future. I cannot express enough gratitude towards the Glory Stack Memorial Scholarship for all of their help in my education!

Thank you for all the support
